

## Safety Data Sheet according to (EC) No 1907/2006

Page 1 of 6

Loctite Super Glue Power Easy

sds no. : 383159  
V001.1

Revision: 01.09.2011  
printing date: 03.01.2012

### SECTION 1: Identification of the substance/mixture and of the company/undertaking

**Product identifier:**

Loctite Super Glue Power Easy

**Relevant identified uses of the substance or mixture and uses advised against:**

Intended use:  
Super glue

**Details of the supplier of the safety data sheet:**

Henkel Limited  
Apollo Court, 2 Bishop Square Business Park  
Hatfield, Hertfordshire AL10 9EY

Great Britain

Phone: +44 (0)1606 593933  
Fax-no.: +44 (0)1606 863762

ua-productsafety.uk@uk.henkel.com

**Emergency Telephone Number:**

24 Hours Emergency Tel: +44 0 8701 906777 - For further general health & safety, technical and practical advice on this product, please call +44 (0) 1606 593933 or write to: Technical Services; Henkel Limited; Road 5; Winsford Industrial Estate; Winsford; Cheshire; CW7 3QY- Email: technical.services@henkel.co.uk

### SECTION 2: Hazards identification

**Classification of the substance or mixture:**

**Classification (DPD):**

No classification required.

**Label elements (DPD):**

The product is not subject to classification according to the calculation methods of the "General Classification Guideline for Preparations of the EC" as issued in the last version.

**Additional labeling:**

Cyanoacrylate. Danger. Bonds skin and eyes in seconds. Keep out of the reach of children.

**Other hazards:**

Persons suffering from allergic reactions to acrylates should avoid contact with the product.

**SECTION 3: Composition/information on ingredients****General chemical description:**

Super glue

**Base substances of preparation:**

Cyanoacrylate

**Declaration of the ingredients according to CLP (EC) No 1272/2008:**

No data available.

**Declaration of ingredients according to DPD (EC) No 1999/45:**

Hazardous components CAS-No.	EC Number REACH-Reg No.	content	Classification
2-Methoxyethyl a-cyanoacrylate 27816-23-5	248-670-5	> 70 - < 100 %	

**For full text of the R-Phrases indicated by codes see section 16 'Other Information'.****Substances without classification may have community workplace exposure limits available.****SECTION 4: First aid measures****Description of first aid measures:****Inhalation:**

Move to fresh air, consult doctor if complaint persists.

**Skin contact:**

Do not pull bonded skin apart. It may be gently peeled apart using a blunt object such as a spoon, preferably after soaking in warm soapy water.

Cyanoacrylates give off heat on solidification. In rare cases a large drop will generate enough heat to cause a burn.

Burns should be treated normally after the adhesive has been removed from the skin.

If lips are accidentally stuck together apply warm water to the lips and encourage maximum wetting and pressure from saliva inside the mouth.

Peel or roll lips apart. Do not try to pull the lips apart with direct opposing action.

**Eye contact:**

If the eye is bonded closed, release eyelashes with warm water by covering with wet pad.

Cyanoacrylate will bond to eye protein and will cause periods of weeping which will help to debond the adhesive.

Keep eye covered until debonding is complete, usually within 1-3 days.

Do not force eye open. Medical advice should be sought in case solid particles of cyanoacrylate trapped behind the eyelid cause any abrasive damage.

**Ingestion:**

Ensure that breathing passages are not obstructed. The product will polymerise immediately in the mouth making it almost impossible to swallow. Saliva will slowly separate the solidified product from the mouth (several hours).

**Most important symptoms and effects, both acute and delayed:**

No data available.

**Indication of any immediate medical attention and special treatment needed:**

See section: Description of first aid measures

**SECTION 5: Firefighting measures****Extinguishing media:****Suitable extinguishing media:**

carbon dioxide, foam, powder, water spray jet, fine water spray

**Extinguishing media which must not be used for safety reasons:**

High pressure waterjet

**Special hazards arising from the substance or mixture:**

In the event of a fire, carbon monoxide (CO) and carbon dioxide (CO<sub>2</sub>) can be released.

**Advice for firefighters:**

Wear self-contained breathing apparatus.  
Wear protective equipment.

**SECTION 6: Accidental release measures**

**Personal precautions, protective equipment and emergency procedures:**

Avoid contact with skin and eyes.  
Wear protective equipment.

**Environmental precautions:**

Do not empty into drains / surface water / ground water.

**Methods and material for containment and cleaning up:**

Remove with liquid-absorbing material (sand, peat, sawdust).  
Dispose of contaminated material as waste according to Chapter 13.

**Reference to other sections:**

See advice in chapter 8

**SECTION 7: Handling and storage**

**Precautions for safe handling:**

Open and handle container with care.  
Avoid skin and eye contact.

**Hygiene measures:**

Wash hands before work breaks and after finishing work.  
Do not eat, drink or smoke while working.

**Conditions for safe storage, including any incompatibilities:**

For optimum shelf life store in original containers under refrigerated conditions at 2 - 8°C (35.6 - 46.4 °F)  
Store in sealed original container.  
Store in a cool place, max. storage temperature 30°C.  
Store in a dry place.  
Store frost-free.

Do not store together with food or other consumables (coffee, tea, tobacco, etc.).

**Specific end use(s):**

Super glue

**SECTION 8: Exposure controls/personal protection**

**Control parameters:**

Valid for  
Great Britain

None

**Exposure controls:**

**Respiratory protection:**

Not needed.

**Hand protection:**

Recommended are gloves made from Nitril rubber ( Material thickness >0,1 mm, Perforation time < 30s).Gloves should be replaced after each short time contact or contamination. Available at laboratory specialized trade or at pharmacies / chemist's shops.

Eye protection:  
Goggles which can be tightly sealed.

Skin protection:  
Suitable protective clothing

## SECTION 9: Physical and chemical properties

**Information on basic physical and chemical properties:**

Appearance	liquid thick, liquid colourless, Straw
Odor	characteristic
pH	No data available / Not applicable
Initial boiling point	No data available / Not applicable
Flash point	> 80 °C (> 80 80 °C)
Flash point	80 - 93,4 °C (176 - 200.12 °F)
Decomposition temperature	No data available / Not applicable
Vapour pressure	No data available / Not applicable
Density	No data available / Not applicable
Bulk density	No data available / Not applicable
Viscosity	No data available / Not applicable
Viscosity (kinematic)	No data available / Not applicable
Explosive properties	No data available / Not applicable
Solubility (qualitative)	Polymerises in presence of water.
Solubility (qualitative)	Polymerises in presence of water.
Solidification temperature	No data available / Not applicable
Melting point	No data available / Not applicable
Flammability	No data available / Not applicable
Auto-ignition temperature	No data available / Not applicable
Explosive limits	No data available / Not applicable
Partition coefficient: n-octanol/water	No data available / Not applicable
Evaporation rate	No data available / Not applicable
Vapor density	No data available / Not applicable
Oxidising properties	No data available / Not applicable

**Other information:**

No data available / Not applicable

## SECTION 10: Stability and reactivity

**Reactivity:**

Rapid exothermic polymerization will occur in the presence of water, amines, alkalis and alcohols.

**Chemical stability:**

Stable under recommended storage conditions.

**Possibility of hazardous reactions:**

See section reactivity

**Conditions to avoid:**

None if used for intended purpose.

**Incompatible materials:**

None if used properly.

**Hazardous decomposition products:**

None known

**SECTION 11: Toxicological information****General toxicological information:**

To the best of our knowledge no harmful effects are to be expected if the product is handled and used properly.

**Germ cell mutagenicity:**

Hazardous components CAS-No.	Result	Type of study / Route of administration	Metabolic activation / Exposure time	Species	Method
2-Methoxyethyl a- cyanoacrylate 27816-23-5	negative	bacterial reverse mutation assay (e.g Ames test)	with and without		OECD Guideline 471 (Bacterial Reverse Mutation Assay)

**SECTION 12: Ecological information****General ecological information:**

Do not empty into drains, soil or bodies of water.

**SECTION 13: Disposal considerations****Waste treatment methods:**

Product disposal:

Dispose of waste and residues in accordance with local authority requirements.

Disposal of uncleaned packages:

Disposal must be made according to official regulations.

Waste code

080410

**SECTION 14: Transport information****Road transport ADR:**

Not dangerous goods

**Railroad transport RID:**

Not dangerous goods

**Inland water transport ADN:**

Not dangerous goods

**Marine transport IMDG:**

Not dangerous goods

**Air transport IATA:**

Class: 9  
Packaging group:  
Packaging instructions (passenger)  
Packaging instructions (cargo)  
UN no.: 3334  
Label: 9  
Proper shipping name: Aviation regulated liquid, n.o.s. (Cyanoacrylate ester)

**SECTION 15: Regulatory information****Safety, health and environmental regulations/legislation specific for the substance or mixture:**

VOC content 2,00 %

---

(VOCV 814.018 VOC regulation CH)	
VOC content (1999/13/EC)	< 3 %
VOC content (1999/13/EC)	< 3 %

#### **SECTION 16: Other information**

**Further information:**

This information is based on our current level of knowledge and relates to the product in the state in which it is delivered. It is intended to describe our products from the point of view of safety requirements and is not intended to guarantee any particular properties.
