Esbit

Safety Data Sheet according to EC-Regulation 91/155/EEC

1. Identification of the substance/preparation and of the company/undertaking

Identification of the substance or preparation

Trockenbrennstoff "Esbit"

Use of the substance/preparation

Refer to description of material or preparation

Company/undertaking identification KMT GmbH, An der Waldstraße 1, D -08233 Treuen / Vogtl. Telephone +49 (0)37468 / 608 - 0, Fax +49 (0)37468 / 608 - 10

Emergency telephone / Office for advice

Advisory office in case of poisoning

Telephone number of the company in case of emergencies:

Tel. +49 (0)37468 / 608 - 0

2. Composition/information on ingredients

EINECS, ELINCS 2.1 Chemical name content % symbol R-phrases 11-42/43

Methenamine
For complete wording of the R-phrases, refer to point 16.

3. Hazards identification

3.1 To peopleSee point 11 and 15.
Preparation is classified as hazardous in the sense of directive 1999/45/EC.

Product is highly flammable.
Product results in a sensitizing effect.
3.2 To the environment

See point 12.

4. First aid measures

4.1 Inhalation

Remove person from danger area

Supply person with fresh air and consult doctor according to symptoms

Keep Data Sheet available.
4.2 Eye contact

4.2 Eye contact Wash thoroughly for several minutes using copious water. Seek medical help if necessary. Keep Data Sheet available.

Skin contact

Wash thoroughly using copious water - remove contaminated clothing immediately. If skin irritation occurs (redness etc.), consult doctor Keep Data Sheet available.

Ingestion Call doctor immediately - have Data Sheet available

4.5 Special resources necessary for first aid

Indications for the physician: Delayed effects from exposure can be expected

5. Fire-fighting measures

Suitable extinguishing media

Alcohol resistant foam

5.2 Extinguishing media which must not be used for safety reasons

n.c.5.3 Special exposure hazards arising from the substance or preparation itself, combustion products, resulting gases
In case of fire the following can develop:

Formaldehyde

Ammonia Nitro gases

Hydrocvanic acid (hydrogen cyanide)

5.4 Special protective equipment for fire-fighters Protective respirator with independent air supply

According to size of fire

Chemical protection suit

Further information

Dispose of contaminated extinction water according to official regulations

6. Accidental release measures

efer to point 13. and for personal protection refer to point 8 .1 Personal precautions

Avoid build up of dust.
Ensure sufficient supply of air.
Avoid inhalation, and contact with eyes or skin.

6.2 Environmental measures

Prevent from entering drainage system.

If accidental entry into drainage system occurs, inform responsible authorities

6.3 Methods for cleaning upCollect mechanically and dispose of according to point 13. Flush residue using copious water.

7. Handling and storage

7.1 Handling Tips for safe handling:

See point 6.1 Ensure good ventilation. Avoid build up of dust.

Avoid contact with eyes or skin.

Avoid contact with eyes of signifion - Do not smoke.

Eating, drinking, smoking, as well as food-storage, is prohibited in work-room.

Observe directions on label and instructions for use.

Use working methods according to operating instructions. No contact with products of this type in case of allergies, asthma und chronic respiratory tract disorders

Revision: 13.02.2007 Replaces the version of: 08.05.2006 PDF date: 26.02.2007

Esbit

Storage

7.2. Storage
Requirements for storage rooms and containers:
Store products only unopened, in original packing.
Not to be stored in gangways or stair wells.
Observe regulations for keeping separated.
Special storage conditions:

Protect against moisture and store closed

8. Exposure controls/personal protection

Ensure good ventilation. This can be achieved by local suction or general air extraction. If this is insufficient to maintain the concentration under the WEL or AGW values, suitable breathing protection should be worn.

Applies only if maximum permissible exposure values are listed here

	GB) Chemical Name	emical Name general dust limit		
		respir. dust) WEL-STEL:		
[MGV: Other information:			

WEL-TWA = Workplace Exposure Limit - Long-term exposure limit (8-hour TWA (= time weighted average) reference period) EH40. AGW = "Arbeitsplatzgrenzwert" (workplace limit value, Germany). | WEL-STEL = Workplace Exposure Limit - Short-terme exposure limit (15-minute reference period). | BMGV = Biological monitoring guidance value EH40. BGW = "Biologischer Grenzwert" (biological limit value, Germany) | Other information: Sen = Capable of causing occupational asthma. Sk = Can be absorbed through skin. Carc = Capable of causing cancer and/or heritable genetic damage

* = The exposure limit for this substance is repealed through the TRGS 900 (Germany) of January 2006 with the goal of revision.

8.1 Respiratory protection Normally not necessary.

On dust formation:

Breathing mask with fine dust filter necessary (EN 143). 8.2 Hand protection: Rubber gloves (EN 374).

8.3 Eye protection: Normally not necessary 8.4 Skin protection:

8.4 Skin protection:

Protective working garments (e.g. safety shoes EN 344, long-sleeved protective working garments)

Additional information on hand protection - No tests have been performed.

Selection made for preparations according to the best available knowledge and information on the ingredients.

Selection of materials derived from glove manufacturer's indications.

Final selection of glove material must be made taking the breakthrough times, permeation rates

and degradation into account.

Selection of a suitable glove depends not only on the material but also on other quality characteristics and varies from manufacturer to manufacturer.

In the case of preparations the resistance of glove materials cannot be calculated in advance so it has to be tested before use. The exact breakthrough time of the glove material can be requested from the protective glove manufacturer and must be observed.

9. Physical and chemical properties

Physical state: Colour: Odour Ammonia 10 % pH-value: n.av. Boiling point/range (°C): Melting point/range (°C): n.av. 280 (subl.) Flash point (°C): n.c. Flammability (solid/gas): Ignition temperature: Autoflammability: n.c. 390°C n.c. Minimum limit of explosion: n.a. Maximum limit of explosion:
The product is capable of causing a dust explosion.
20 mg/m3 n.a

Density (g/ml): Bulk density: Solubility in water: Vapour density (air = 1): Miscibility:

1,33

100 - 874 g/l/20°C, 844 g/l/60°C

Chloroform, Alcohol

10. Stability and reactivity

10.1 Conditions to avoid

Stable when handled and stored correctly

10.2 Materials to avoid
Contact with strong acids leads to strong exothermic reaction.
Avoid contact with oxidizing agents.
Peroxides
Aliminit

Aluminium

Tin

10.3 Hazardous decomposition products

See point 5.3 Formaldehyde

11. Toxicological information

n.c.

11.1 Acute toxicity and immediate effects

Ingestion, LD50 rat oral (mg/kg): Inhalation, LC50 rat inhal.(mg/l/4h): 9200, (Particulars of main substances contained) n.av. Skin contact, LD50 rat dermal (mg/kg) n.av. Eye contact: n.av

11.2 Delayed and chronic effects

Sensitization Yes (inhalation and skin contact) Carcinogenicity: Mutagenicity: Reproductive toxicity: n.c.

11.3. Further information

Classification according to calculation procedure. The following may occur: In case of sensitivity, concentrations below the limit value may already result in asthmatic symptoms. Irritation of the eyes

Inhalation:

Narcosis:

Irritant to mucosa of the nose and throat Coughing Respiratory distress

Nausea

Inaestion:

Revision: 13.02.2007 Replaces the version of: 08.05.2006 PDF date: 26.02.2007

Esbit

Vomiting

Gastrointestinal disturbances Kidney damage

12. Ecological information

Water hazard class (Germany): Self classification:

Persistence and degradability Abiotically degradable. Not readily biodegradable

In case of contact with water:

Hydrolysis Behaviour in sewage plants:

Aquatic toxicity:

Aquatic toxicity:
Toxicity to fish:
LC50/96h 49 800mg/l Pimephales promelas *
Toxic to marine organisms:
NOEC/336h 1500 mg/l Selenastrum capricornutum *
Escherischia coli TGR/12h 500 mg/l *
Ecological toxicity:
* Methenamine

n.av

Yes (VwVwS)

13. Disposal considerations

13.1. for the material / preparation / residue

EC disposal code no.:
The waste codes are recommendations based on the scheduled use of this product.

Owing to the user's specific conditions for use and disposal, other waste codes may be allocated under certain circumstances. (2001/118/EC, 2001/119/EC, 2001/573/EC) 07 07 99 wastes not otherwise specified 07 01 99 wastes not otherwise specified

Recommendation:

Pay attention to local and national official regulations E.g. dispose at suitable refuse site.
E.g. suitable incineration plant.

13.2 for contaminated packing material See point 13.1

Pay attention to local and national official regulations

Uncontaminated packaging can be recycled.

Dispose of packaging that cannot be cleaned in the same manner as the substance 15 01 01 paper and cardboard packaging

15 01 02 plastic packaging

14. Transport information

General statements

Road/Rail-transport (ADR/RID)

Class/packing-group Classification code:

Transport by sea IMDG-code:

EmS: Marine Pollutant:

HEXAMETHYLENETETRAMINE, MIXTURE Transport by air

IATA:

Hexamethylenetetramine mixture

Additional information: Danger code and packing code on request. 1328

4.1/111

4.1/111 (class/packing-group)

F-A, S-G n.a

4.1/-/III (class/secondary danger/packing-group)

15. Regulatory information

Classification according to Dangerous Product Regulations incl. EC Directives (67/548/EEC and 1999/45/EC)

Symbols: F/Xn Indications of danger Highly flammable Harmful

R-phrases

11 Highly flammable. 42/43 May cause sensitization by inhalation and skin contact. S-phrases:

(2) Keep out of the reach of children

22 Do not breathe dust.
24 Avoid contact with skin.
35 This material and its container must be disposed of in a safe way.

37 Wear suitable gloves

45 In case of accident or if you feel unwell, seek medical advice immediately (show the label where possible).

Additions

Methenamine Observe restrictions:

Observe youth employment law (German regulation).

Observe law on protection of expectant mothers (German regulation)

Observe restrictive guidelines 76/769/EEC, 1999/51/EC, 1999/77/EC

16. Other information

These details refer to the product as it is delivered. Storage class VCI (Germany):

Revised points:

4.1 B 15

Yes

Hommel

870

The following phrases represent the prescribed R-phrases for the ingredients (designated in point 2).

11 Highly flammable

42/43 May cause sensitization by inhalation and skin contact.

Legend:

n.a. = not applicable / n.v., k.D.v. = n.av. = not available / n.g. = n.c. = not checked

WEL = Workplace Exposure Limit EH40, TWA = Long-term exposure limit (8-hour TWA (= time weighted average) reference period), STEL = Short-terme exposure limit (15-minute reference period) / BMGV = Biological monitoring guidance value EH40

AGW = "Arbeitsplatzgrenzwert" (workplace limit value, Germany) / BGW = "Biologischer Grenzwert" (biological limit value, Germany)

VbF = Regulations for flammable liquids (Austria)

WGK = water hazard class (Germany) - WGK 3 = very hazardous, WGK 2 = hazardous, WGK 1 = slightly hazardous to water

VOC = Volatile organic compounds / AOX = Adsorbable organic halogen compounds

VWVWS = Administrative Order relating to substances hazardous to water (Germany)
