**Command™**
WATER-RESISTANT STRIPS

IMPORTANT: FOLLOW instructions carefully!
SAVE INSTRUCTIONS for clean removal in the future or visit www.commandstrips.ca.
To Attach Corner Caddy:

Prep:

1

Select Location
If possible, choose a location where strips are not over grout lines.
Important: Allow space above and below caddy for removal.

**2**

Important: Clean & Dry Surface
Thoroughly clean surface with isopropyl rubbing alcohol to remove all soap, shampoo and cleaner residue. Use a clean, dry cloth to wipe surface completely dry. **DO NOT** use household cleaners. **Keep alcohol pad out of reach of children and avoid eye contact.**
3

Apply Mounting Bases
Slide plastic mounting base onto back of caddy from the bottom up until it snaps into place for both sides A & B**.**

Mount:

4

Separate & Apply Strips
Separate strips. Remove **red liners**. Apply 2 strips to mounting **base A only**. Remove black liners on side A of the caddy.
5

Slide & Press
Position **side B** of the caddy against the wall so that **side A** is not touching the other wall. Holding **side B** against the wall, slide the caddy sideways into place so that **side A** touches the wall and press firmly against surface for 5 seconds.
6

**Remove Caddy**
Slide caddy up to remove from mounting base.

7

Separate & Apply Strips
Separate strips. Remove **red liners**. Apply 2 strips to mounting **base B**. Remove black liners on **side B** of the caddy.
8

Attach Caddy
While keeping **side B** away from the wall, slide caddy back onto mounting **base A** until it snaps into place.
9

Position & Press
Press against the surface for 5 seconds.

10

**Remove Caddy**
Slide caddy up to remove from mounting bases.

⚠ **CAUTION:** Caddy must be removed for time specified in step 12 to prevent adhesive failure.

11

Press Firmly
Use your palm to **FIRMLY press all 3 areas of both bases for 30 seconds each.**
Wait:

12

24 HOURS

or

1 HOUR

If mounting in a shower or tub area: **USE SHOWER AT LEAST ONCE AND THEN WAIT OVERNIGHT** to allow adhesive to build strength before attaching corner caddy.
If mounting outside of shower or tub area: **WAIT 1 HOUR** to allow adhesive to build strength before attaching corner caddy.
13

Attach Caddy
Slide caddy back onto both mounting bases until it snaps into place.
To Remove:

1

Remove Caddy
Slide caddy up to remove from mounting bases.

2

Hold Base Lightly
To prevent base from snapping your fingers, lightly hold mounting base – **DO NOT** press base against wall.

3

SLOWLY

Remove Strip
NEVER pull strip out at an angle. Strip could break or damage surface. **SLOWLY slide tab** *STRAIGHT DOWN AGAINST WALL* stretching strip at least **15 inches (38 cm) until mounting base releases from wall.** Remove one strip at a time. Repeat steps with additional strips.
