# HARD DRIVE DOCK DUPLICATOR

DOCKING STATION / 2.5" & 3.5" SATA / USB 2.0

### HARD DRIVE DOCK DUPLICATOR

The Freecom Hard Drive Dock Duplicator is a 2 bay hard drive dock that enables you to copy data from one hard drive to another without the use of a computer. Simply click your hard drives into the duplicator, press the button and your hard drive will be copied. Ideal for professionals such as System administrators to copy drive images quicker, easier and safer than before. Home users will also benefit from the copy function when upgrading to a bigger hard drive or simply using the Dock functionality.

Of course the duplicator can also be used as a single hard drive dock. The Duplicator easily connects to all kinds of computers and laptops via USB2.0 or a super fast eSATA connection. Cables are included in the box. Click your 2,5" or 3,5" SATA drive in the dock and it instantly becomes available to you, exactly like an external drive. Ideal for temporary use of your ( old ) internal hard drive.

### HARD DRIVE DOCK DUPLICATOR

- Hard drive duplicator dock with USB 2.0 and eSATA interface
- Ideal for drive to drive copying, software or drive image installations, quick formatting, erasing and backups
- Easy to use. Swap hard drives in a matter of seconds
- Perfectly suited for both professional and home use
- Fits 3.5" and 2.5" SATA hard drives
- Insert your internal drives in the dock with one click, easy ejection after use
- Drive load indicator for easy tracking of copy status
- Including USB 2.0 and eSATA connection cable
- Unlimited free helpdesk support
- Two years manufacturer's warranty and unlimited free helpdesk support

### DUPLICATION MADE EASY

Duplicate data from one hard drive to another by simply pressing the button. Quicker, safer and most of all, easier than ever before. Simply click your hard drives into the duplicator, press the button and your hard drive will be copied. The load indicator makes it easy to track copy status. Duplication made easy.

### CLICK AND EJECT, EASY TO USE

All Freecom docks are suitable for 2.5" and 3.5" SATA hard drives. Click your drive in the dock and it instantly becomes available to you, exactly like an external drive. Finished using a drive? Simply press the eject button and the drive will be disconnected. Ideal for temporary use of your (old) internal hard drive.

### USE WITH EVERY COMPUTER

Connect the dock duplicator to every PC or Mac via the most commonly used interface USB 2.0 or a super fast eSATA connection. Cables are supplied in the box so you can get started right away. Freecom Docks have received numerous awards. All the good from the past has now been incorporated in this great Hard Drive Dock Duplicator: Innovative German quality.
